WILSON INVESTMENT FUND LTD - DECEMBER 2003 **INVESTMENT UPDATE & NTA**

The building of the equity portfolio is continuing.

The NTA before tax as at 31st December was 101.32 cents per share and the NTA after tax was 100.50 cents per share.

As at 12th January, we had committed 12.5% of net assets to equities and listed debt. The remainder being held in fixed interest and cash. The NTA at the close of the issue in August was \$0.982 per share.

One of most important principals we're focusing on when investing for the medium to long term is making sure we buy at the lowest price possible. That means not buying into fads or bubbles. It is important to use a very disciplined approach. Making sure of obtaining the correct purchase point for each company you buy shares in can require significant patience.

Our near term view of the equity market is one of cautious optimism. We will only invest WIL's money when we believe the rewards significantly out weigh the risks.
