Listed Managed Investments

June 2015 Quarterly Review

WHO IS IIR?

Independent Investment Research, "IIR", is an independent investment research house based in Australia and the United States. IIR specialises in the analysis of high quality commissioned research for Brokers, Family Offices and Fund Managers. IIR distributes its research in Asia, United States and the Americas. IIR does not participate in any corporate or capital raising activity and therefore it does not have any inherent bias that may result from research that is linked to any corporate/ capital raising activity.

IIR was established in 2004 under Aegis Equities Research Group of companies to provide investment research to a select group of retail and wholesale clients. Since March 2010, IIR (the Aegis Equities business was sold to Morningstar) has operated independently from Aegis by former Aegis senior executives/shareholders to provide clients with unparalleled research that covers listed and unlisted managed investments, listed companies, structured products, and IPOs.

IIR takes great pride in the quality and independence of our analysis, underpinned by high caliber staff and a transparent, proven and rigorous research methodology.

INDEPENDENCE OF RESEARCH ANALYSTS

Research analysts are not directly supervised by personnel from other areas of the Firm whose interests or functions may conflict with those of the research analysts. The evaluation and appraisal of research analysts for purposes of career advancement, remuneration and promotion is structured so that non-research personnel do not exert inappropriate influence over analysts.

Supervision and reporting lines: Analysts who publish research reports are supervised by, and report to, Research Management. Research analysts do not report to, and are not supervised by, any sales personnel nor do they have dealings with Sales personnel

Evaluation and remuneration: The remuneration of research analysts is determined on the basis of a number of factors, including quality, accuracy and value of research, productivity, experience, individual reputation, and evaluations by investor clients.

INDEPENDENCE – ACTIVITIES OF ANALYSTS

IIR restricts research analysts from performing roles that could prejudice, or appear to prejudice, the independence of their research.

Pitches: Research analysts are not permitted to participate in sales pitches for corporate mandates on behalf of a Broker and are not permitted to prepare or review materials for those pitches. Pitch materials by investor clients may not contain the promise of research coverage by IIR.

No promotion of issuers' transactions: Research analysts may not be involved in promotional or marketing activities of an issuer of a relevant investment that would reasonably be construed as representing the issuer. For this reason, analysts are not permitted to attend "road show" presentations by issuers that are corporate clients of the Firm relating to offerings of securities or any other investment banking transaction from that our clients may undertake from time to time. Analysts may, however, observe road shows remotely, without asking questions, by video link or telephone in order to help ensure that they have access to the same information as their investor clients.

Widely-attended conferences: Analysts are permitted to attend and speak at widely-attended conferences at which our firm has been invited to present our views. These widely-attended conferences may include investor presentations by corporate clients of the Firm.

Other permitted activities: Analysts may be consulted by Firm sales personnel on matters such as market and industry trends, conditions and developments and the structuring, pricing and expected market reception of securities offerings or other market operations. Analysts may also carry out preliminary due diligence and vetting of issuers that may be prospective research clients of ours.

INDUCEMENTS AND INAPPROPRIATE INFLUENCES

IIR prohibits research analysts from soliciting or receiving any inducement in respect of their publication of research and restricts certain communications between research analysts and personnel from other business areas within the Firm including management, which might be perceived to result in inappropriate influence on analysts' views.

Remuneration and other benefits: IIR procedures prohibit analysts from accepting any remuneration or other benefit from an issuer or any other party in respect of the publication of research and from offering or accepting any inducement (including the selective disclosure by an issuer of material information not generally available) for the publication of favourable research. These restrictions do not preclude the acceptance of reasonable hospitality in accordance with the Firm's general policies on entertainment, gifts and corporate hospitality.

DISCLAIMER

This publication has been prepared by Independent Investment Research Holdings Pty Limited trading as Independent Investment Research ("IIR") (ACN 155 226 074), an Australian Financial Services Licensee (AFSL no. 420170). IIR has been commissioned to prepare this independent research report (the "Report") and will receive fees for its preparation. Each company specified in the Report (the "Participants") has provided IIR with information about its current activities. While the information contained in this publication has been prepared with all reasonable care from sources that IIR believes are reliable, no responsibility or liability is accepted by IIR for any errors, omissions or misstatements however caused. In the event that updated or additional information is issued by the "Participants", subsequent to this publication, IIR is under no obligation to provide further research unless commissioned to do so. Any opinions, forecasts or recommendations reflects the judgment and assumptions of IIR as at the date of publication and may change without notice. IIR and each Participant in the Report, their officers, agents and employees exclude all liability whatsoever, in negligence or otherwise, for any loss or damage relating to this document to the full extent permitted by law. This publication is not and should not be construed as, an offer to sell or the solicitation of an offer to purchase or subscribe for any investment. Any opinion contained in the Report is unsolicited general information only. Neither IIR nor the Participants are aware that any recipient intends to rely on this Report or of the manner in which a recipient intends to use it. In preparing our information, it is not possible to take into consideration the investment objectives, financial situation or particular needs of any individual recipient. Investors should obtain individual financial advice from their investment advisor to determine whether opinions or recommendations (if any) contained in this publication are appropriate to their investment objectives, financial situation or particular needs before acting on such opinions or recommendations. This report is intended for the residents of Australia. It is not intended for any person(s) who is resident of any other country. This document does not constitute an offer of services in jurisdictions where IIR or its affiliates do not have the necessary licenses. IIR and/or the Participant, their officers, employees or its related bodies corporate may, from time to time hold positions in any securities included in this Report and may buy or sell such securities or engage in other transactions involving such securities. IIR and the Participant, their directors and associates declare that from time to time they may hold interests in and/or earn brokerage, fees or other benefits from the securities mentioned in this publication.

IIR, its officers, employees and its related bodies corporate have not and will not receive, whether directly or indirectly, any commission, fee, benefit or advantage, whether pecuniary or otherwise in connection with making any statements and/or recommendation (if any), contained in this Report. IIR discloses that from time to time it or its officers, employees and related bodies corporate may have an interest in the securities, directly or indirectly, which are the subject of these statements and/or recommendations (if any) and may buy or sell securities in the companies mentioned in this publication; may affect transactions which may not be consistent with the statements and/or recommendations (if any) in this publication; may have directorships in the companies mentioned in this publication; and/or may perform paid services for the companies that are the subject of such statements and/or recommendations (if any).

However, under no circumstances has IIR been influenced, either directly or indirectly, in making any statements and/or recommendations (if any) contained in this Report. The information contained in this publication must be read in conjunction with the Legal Notice that can be located at <http://www.independentresearch.com.au/Public/Disclaimer.aspx>.

THIS IS A COMMISSIONED RESEARCH REPORT.

The research process includes the following protocols to ensure independence is maintained at all times:

- 1) The research process has complete editorial independence from the company and this included in the contract with the company;
- 2) Our analyst has independence from the firm's management, as in, management/ sales team cannot influence the research in any way;
- 3) Our research does not provide a recommendation, in that, we do not provide a "Buy, Sell or Hold" on any stocks. This is left to the Adviser who knows their client and the individual portfolio of the client.
- 4) Our research process for valuation is usually more conservative than what is adopted in Broking firms in general sense. Our firm has a conservative bias on assumptions provided by management as compared to Broking firms.
- 5) All research mandates are settled upfront so as to remove any influence on ultimate report conclusion;
- 6) All staff are not allowed to trade in any stock or accept stock options before, during and after (for a period of 6 weeks) the research process.

For more information regarding our services please refer to our website www.independentresearch.com.au.

COMPANY OVERVIEW

WAM was listed in August 1999 and is managed by Wilson Asset Management (International) Pty Ltd. WAM provides an actively managed portfolio that focuses on investing in a diversified portfolio of growth companies, primarily small-to-mid cap securities.

INVESTMENT OBJECTIVE

The investment objectives of the fund are to provide a growing stream of fully franked dividends, provide capital growth and preserve capital.

STYLE AND PROCESS

WAM predominantly invests in a diversified portfolio of growth companies. The manager uses a combination of two approaches to select investments:

- (1) The Research Driven approach, which involves making investment decisions based on extensive research on the security. The manager looks for management strength, earnings growth potential, low earnings multiple, advantageous industry position, generation of free cash flow, appropriate return on equity and a catalyst for share price growth. The manager has over 1,000 meetings with management each year; and
- (2) The Market Driven approach, which involves participating in IPOs, placements and takeover arbitrages aiming to take advantage of short-term arbitrage opportunities and mispricing in the market.

PORTFOLIO CHARACTERISTICS

WAM's portfolio focuses on small-to-mid cap stocks with the majority of investments being in companies outside the ASX 100. Given the company focuses on industrial stocks, the portfolio has very little exposure to the resource sector. The manager defaults to cash if acceptable investments cannot be identified. As such, prospective investors need to be aware that the portfolio may have large cash allocations. At 30 June 2015, the portfolio had a 40% cash allocation with the capital raising during the March quarter contributing to the cash position. The company increased its exposure to the Financials sector over the quarter to 32.6% making it the largest sector exposure. The manager exited its Energy positions and the Materials sector exposure is minimal.

INDEPENDENT INVESTMENT RESEARCH COMMENTS

WAM predominantly invests in small-to-mid cap stocks. The Manager primarily maintains small positions in securities to minimise risk, however, there are no size restrictions on investments so the manager can take high conviction positions in a stock if they so desire. We note that smaller cap stocks tend to entail a greater level of risk; however, the upside potential can be considerable. The manager has the ability to short sell stocks. We note, this has never been more than 5% of the portfolio. WAM's portfolio (pre-tax NTA plus dividends) declined 1.2% over the June quarter however outperformed the benchmark index which declined 6.2%. Over the long-term the portfolio has outperformed the benchmark, with an average rolling annual return of 11.2% over the ten years to 30 June 2015, compared to an 8.2% average rolling annual return for the benchmark index. The company is yet to release the FY15 results, however has sufficient reserves to maintain or possibly increase the final dividend. At June-end, the company was trading at a 6.0% premium to pre-tax NTA, above the three-year average premium of 4.2%. The number of shares on issue has increased substantially over the past four years, with over 345m ordinary shares being issued through capital raising, dividend reinvestment plans and the exercise of option issues. While the issue of new shares dilutes existing shareholder positions, the larger portfolio improves liquidity.

OTHER DATA

- ◆ **Options** – none on issue.
- ◆ **Dividend policy** – The Board is committed to paying an increasing stream of fully franked dividends to shareholders provided the company has sufficient franking credits. Dividends are paid on a six-monthly basis.
- ◆ **Capital management policy** – The Board manages the Company's capital by regularly reviewing the most efficient manner by which the company employs its capital. At the core of this management is the belief that shareholder value should be preserved. Shareholder value will be preserved through the management of the level of distributions to shareholders, share and options issues as well as the use of share buy-backs. These capital management initiatives will be used when deemed appropriate by the Board.
- ◆ **LIC tax concessions** – None
- ◆ **DRP available** – Yes

NTA & Share Price Performance

APPENDIX A – RATINGS PROCESS

Independent Investment Research Pty Ltd “IIR” rating system.

IIR has developed a framework for rating investment product offerings in Australia. Our review process gives consideration to a broad number of qualitative and quantitative factors. Essentially, the evaluation process includes the following key factors: management and underlying portfolio construction; investment management, product structure, risk management, experience and performance; fees, risks and likely outcomes.

LMI Ratings	SCORE
<p>Highly Recommended</p> 	<p>83 and above</p> <p>This is the highest rating provided by IIR, indicating this is a best of breed product that has exceeded the requirements of our review process across a number of key evaluation parameters and achieved exceptionally high scores in a number of categories. The product provides a highly attractive risk/return trade-off. The Fund is likely effectively to apply industry best practice to manage endogenous risk factors, and, to the extent that it can, exogenous risk factors.</p>
<p>Recommended +</p> 	<p>79–82</p> <p>This rating indicates that IIR believes this is a superior grade product that has exceeded the requirements of our review process across a number of key evaluation parameters and achieved high scores in a number of categories. In addition, the product rates highly on one or two attributes in our key criteria. It has an above-average risk/return trade-off and should be able consistently to generate above average risk-adjusted returns in line with stated investment objectives. The Fund should be in a position effectively to manage endogenous risk factors, and, to the extent that it can, exogenous risk factors. This should result in returns that reflect the expected level of risk.</p>
<p>Recommended</p> 	<p>60–78</p> <p>This rating indicates that IIR believes this is an above-average grade product that has exceeded the minimum requirements of our review process across a number of key evaluation parameters. It has an above-average risk/return trade-off and should be able to consistently generate above-average risk adjusted returns in line with stated investment objectives.</p>
<p>Not Recommended</p> 	<p><60</p> <p>This rating indicates that IIR believes this is a suitable product that has met the aggregate requirements of our review process across a number of key evaluation criteria. The product provides some unique diversification opportunities, but may not stand apart from its peers. It has an acceptable risk/return trade-off and should generate risk adjusted returns in line with stated investment objectives. However, concerns over one or more features mean that it may not be suitable for most investors.</p>

APPENDIX B – MANAGED INVESTMENTS COVERAGE

The below graphic details the spread of ratings for managed investments rated by Independent Investment Research (IIR). The managed investments represented below include listed and unlisted managed funds, fund of funds, exchange traded funds and model portfolios.

COMPANY OVERVIEW

WAX is a listed investment company that invests in growth companies which are generally small to medium sized industrial companies. The company was listed in 2003 and the portfolio is managed by Wilson Asset Management (International) Pty Ltd.

INVESTMENT OBJECTIVE

The company aims to provide shareholders a steady stream of fully franked dividends and a high real rate of return, comprising both capital and income.

STYLE AND PROCESS

WAX's investment philosophy is to invest predominantly in industrial companies with an emphasis on companies that are under researched and are considered undervalued by the Manager. As such the company focuses on small-to-mid cap companies. The manager uses a Research Driven approach to identify investment opportunities, which involves making investment decisions based on extensive research on the security. The manager looks for management strength, earnings growth potential, low earnings multiple, advantageous industry position, generation of free cash flow, appropriate return on equity and a catalyst for share price growth. The manager has over 1,000 meetings with management each year.

PORTFOLIO CHARACTERISTICS

WAX aims to maintain a portfolio of between 30 and 60 securities. The manager focuses on small-to-mid cap stocks with all investments outside the top 100. Given the company focuses on industrial stocks, the portfolio has very little, if any, exposure to the resource sector. The largest portfolio allocation, outside of cash, is to the Consumer Discretionary sector with 37.4% of the long portfolio allocated to this sector. The manager will hold cash if attractive investment opportunities cannot be identified. The Manager held 46% of the portfolio in cash at 30 June 2015.

INDEPENDENT INVESTMENT RESEARCH COMMENTS

WAX predominantly invests in small-to-mid cap industrial stocks. We note that smaller cap stocks tend to entail a greater level of risk; however, the upside potential can be considerable. There are no size restrictions on investments therefore the manager has the ability to take high conviction positions. WAX's portfolio (pre-tax NTA plus dividends) has outperformed the benchmark index over the 12-months to 30 June 2015, rising 13.9% compared to the benchmark index increase of 5.7%. The lack of exposure to the Energy and Materials sectors assisted with the strong performance of the portfolio, given resources were a significant drag on the S&P/ASX Small Ordinaries Index. The portfolio also outperformed the S&P/ASX Small Ordinaries industrials Accumulation Index by 6.7% over the 12-month period. This index is probably the best comparison of performance given the current structure of the portfolio. The recent performance of the portfolio has resulted in the portfolio significantly outperforming the benchmark index over the medium-term and performing in line over the longer-term. In June, the bonus options issued expired. The company raised \$28.3, with approximately 34% of the options exercised. The company continues to offer an above market dividend yield in excess of 6%. We believe this to have been a driver for the share price, which has resulted in the company trading at a premium to pre-tax NTA of 1.6% at 30 June 2015. The company has sufficient reserves to maintain or even increase the final dividend for FY15.

NTA & Share Price Performance

APPENDIX A – RATINGS PROCESS

Independent Investment Research Pty Ltd “IIR” rating system.

IIR has developed a framework for rating investment product offerings in Australia. Our review process gives consideration to a broad number of qualitative and quantitative factors. Essentially, the evaluation process includes the following key factors: management and underlying portfolio construction; investment management, product structure, risk management, experience and performance; fees, risks and likely outcomes.

LMI Ratings	SCORE
<p>Highly Recommended</p> 	<p>83 and above</p> <p>This is the highest rating provided by IIR, indicating this is a best of breed product that has exceeded the requirements of our review process across a number of key evaluation parameters and achieved exceptionally high scores in a number of categories. The product provides a highly attractive risk/return trade-off. The Fund is likely effectively to apply industry best practice to manage endogenous risk factors, and, to the extent that it can, exogenous risk factors.</p>
<p>Recommended +</p> 	<p>79–82</p> <p>This rating indicates that IIR believes this is a superior grade product that has exceeded the requirements of our review process across a number of key evaluation parameters and achieved high scores in a number of categories. In addition, the product rates highly on one or two attributes in our key criteria. It has an above-average risk/return trade-off and should be able consistently to generate above average risk-adjusted returns in line with stated investment objectives. The Fund should be in a position effectively to manage endogenous risk factors, and, to the extent that it can, exogenous risk factors. This should result in returns that reflect the expected level of risk.</p>
<p>Recommended</p> 	<p>60–78</p> <p>This rating indicates that IIR believes this is an above-average grade product that has exceeded the minimum requirements of our review process across a number of key evaluation parameters. It has an above-average risk/return trade-off and should be able to consistently generate above-average risk adjusted returns in line with stated investment objectives.</p>
<p>Not Recommended</p> 	<p><60</p> <p>This rating indicates that IIR believes this is a suitable product that has met the aggregate requirements of our review process across a number of key evaluation criteria. The product provides some unique diversification opportunities, but may not stand apart from its peers. It has an acceptable risk/return trade-off and should generate risk adjusted returns in line with stated investment objectives. However, concerns over one or more features mean that it may not be suitable for most investors.</p>

APPENDIX B – MANAGED INVESTMENTS COVERAGE

June 2015 Quarterly Review

WHO IS IIR?

Independent Investment Research, "IIR", is an independent investment research house based in Australia and the United States. IIR specialises in the analysis of high quality commissioned research for Brokers, Family Offices and Fund Managers. IIR distributes its research in Asia, United States and the Americas. IIR does not participate in any corporate or capital raising activity and therefore it does not have any inherent bias that may result from research that is linked to any corporate/ capital raising activity.

IIR was established in 2004 under Aegis Equities Research Group of companies to provide investment research to a select group of retail and wholesale clients. Since March 2010, IIR (the Aegis Equities business was sold to Morningstar) has operated independently from Aegis by former Aegis senior executives/shareholders to provide clients with unparalleled research that covers listed and unlisted managed investments, listed companies, structured products, and IPOs.

IIR takes great pride in the quality and independence of our analysis, underpinned by high caliber staff and a transparent, proven and rigorous research methodology.

INDEPENDENCE OF RESEARCH ANALYSTS

Research analysts are not directly supervised by personnel from other areas of the Firm whose interests or functions may conflict with those of the research analysts. The evaluation and appraisal of research analysts for purposes of career advancement, remuneration and promotion is structured so that non-research personnel do not exert inappropriate influence over analysts.

Supervision and reporting lines: Analysts who publish research reports are supervised by, and report to, Research Management. Research analysts do not report to, and are not supervised by, any sales personnel nor do they have dealings with Sales personnel

Evaluation and remuneration: The remuneration of research analysts is determined on the basis of a number of factors, including quality, accuracy and value of research, productivity, experience, individual reputation, and evaluations by investor clients.

INDEPENDENCE – ACTIVITIES OF ANALYSTS

IIR restricts research analysts from performing roles that could prejudice, or appear to prejudice, the independence of their research.

Pitches: Research analysts are not permitted to participate in sales pitches for corporate mandates on behalf of a Broker and are not permitted to prepare or review materials for those pitches. Pitch materials by investor clients may not contain the promise of research coverage by IIR.

No promotion of issuers' transactions: Research analysts may not be involved in promotional or marketing activities of an issuer of a relevant investment that would reasonably be construed as representing the issuer. For this reason, analysts are not permitted to attend "road show" presentations by issuers that are corporate clients of the Firm relating to offerings of securities or any other investment banking transaction from that our clients may undertake from time to time. Analysts may, however, observe road shows remotely, without asking questions, by video link or telephone in order to help ensure that they have access to the same information as their investor clients.

Widely-attended conferences: Analysts are permitted to attend and speak at widely-attended conferences at which our firm has been invited to present our views. These widely-attended conferences may include investor presentations by corporate clients of the Firm.

Other permitted activities: Analysts may be consulted by Firm sales personnel on matters such as market and industry trends, conditions and developments and the structuring, pricing and expected market reception of securities offerings or other market operations. Analysts may also carry out preliminary due diligence and vetting of issuers that may be prospective research clients of ours.

INDUCEMENTS AND INAPPROPRIATE INFLUENCES

IIR prohibits research analysts from soliciting or receiving any inducement in respect of their publication of research and restricts certain communications between research analysts and personnel from other business areas within the Firm including management, which might be perceived to result in inappropriate influence on analysts' views.

Remuneration and other benefits: IIR procedures prohibit analysts from accepting any remuneration or other benefit from an issuer or any other party in respect of the publication of research and from offering or accepting any inducement (including the selective disclosure by an issuer of material information not generally available) for the publication of favourable research. These restrictions do not preclude the acceptance of reasonable hospitality in accordance with the Firm's general policies on entertainment, gifts and corporate hospitality.

DISCLAIMER

This publication has been prepared by Independent Investment Research Holdings Pty Limited trading as Independent Investment Research ("IIR") (ACN 155 226 074), an Australian Financial Services Licensee (AFSL no. 420170). IIR has been commissioned to prepare this independent research report (the "Report") and will receive fees for its preparation. Each company specified in the Report (the "Participants") has provided IIR with information about its current activities. While the information contained in this publication has been prepared with all reasonable care from sources that IIR believes are reliable, no responsibility or liability is accepted by IIR for any errors, omissions or misstatements however caused. In the event that updated or additional information is issued by the "Participants", subsequent to this publication, IIR is under no obligation to provide further research unless commissioned to do so. Any opinions, forecasts or recommendations reflects the judgment and assumptions of IIR as at the date of publication and may change without notice. IIR and each Participant in the Report, their officers, agents and employees exclude all liability whatsoever, in negligence or otherwise, for any loss or damage relating to this document to the full extent permitted by law. This publication is not and should not be construed as, an offer to sell or the solicitation of an offer to purchase or subscribe for any investment. Any opinion contained in the Report is unsolicited general information only. Neither IIR nor the Participants are aware that any recipient intends to rely on this Report or of the manner in which a recipient intends to use it. In preparing our information, it is not possible to take into consideration the investment objectives, financial situation or particular needs of any individual recipient. Investors should obtain individual financial advice from their investment advisor to determine whether opinions or recommendations (if any) contained in this publication are appropriate to their investment objectives, financial situation or particular needs before acting on such opinions or recommendations. This report is intended for the residents of Australia. It is not intended for any person(s) who is resident of any other country. This document does not constitute an offer of services in jurisdictions where IIR or its affiliates do not have the necessary licenses. IIR and/or the Participant, their officers, employees or its related bodies corporate may, from time to time hold positions in any securities included in this Report and may buy or sell such securities or engage in other transactions involving such securities. IIR and the Participant, their directors and associates declare that from time to time they may hold interests in and/or earn brokerage, fees or other benefits from the securities mentioned in this publication.

IIR, its officers, employees and its related bodies corporate have not and will not receive, whether directly or indirectly, any commission, fee, benefit or advantage, whether pecuniary or otherwise in connection with making any statements and/or recommendation (if any), contained in this Report. IIR discloses that from time to time it or its officers, employees and related bodies corporate may have an interest in the securities, directly or indirectly, which are the subject of these statements and/or recommendations (if any) and may buy or sell securities in the companies mentioned in this publication; may affect transactions which may not be consistent with the statements and/or recommendations (if any) in this publication; may have directorships in the companies mentioned in this publication; and/or may perform paid services for the companies that are the subject of such statements and/or recommendations (if any).

However, under no circumstances has IIR been influenced, either directly or indirectly, in making any statements and/or recommendations (if any) contained in this Report. The information contained in this publication must be read in conjunction with the Legal Notice that can be located at <http://www.independentresearch.com.au/Public/Disclaimer.aspx>.

THIS IS A COMMISSIONED RESEARCH REPORT.

The research process includes the following protocols to ensure independence is maintained at all times:

- 1) The research process has complete editorial independence from the company and this included in the contract with the company;
- 2) Our analyst has independence from the firm's management, as in, management/ sales team cannot influence the research in any way;
- 3) Our research does not provide a recommendation, in that, we do not provide a "Buy, Sell or Hold" on any stocks. This is left to the Adviser who knows their client and the individual portfolio of the client.
- 4) Our research process for valuation is usually more conservative than what is adopted in Broking firms in general sense. Our firm has a conservative bias on assumptions provided by management as compared to Broking firms.
- 5) All research mandates are settled upfront so as to remove any influence on ultimate report conclusion;
- 6) All staff are not allowed to trade in any stock or accept stock options before, during and after (for a period of 6 weeks) the research process.

For more information regarding our services please refer to our website www.independentresearch.com.au.

COMPANY OVERVIEW

WAA is a listed investment company that provides exposure to an active trading style with the aim of achieving a positive return in all market conditions and a low correlation to traditional markets. The company was listed in January 2008 and the portfolio is managed by Wilson Asset Management (International) Pty Ltd.

INVESTMENT OBJECTIVE

The company has an absolute return focus and therefore aims to generate positive returns in both rising and falling markets. The manager seeks to deliver shareholders a steady stream of fully franked dividends, provide a positive return with low volatility (after fees) and preserve the company's capital in both the short-and long-term.

STYLE AND PROCESS

WAA invests predominantly in ASX-listed securities. Given the objective of the company, the Manager has the ability to short sell securities. The manager uses a 'Market Driven' approach to investing, in which it aims to take advantage of short-term arbitrage and mispricing in the market. The manager participates in IPOs, rights issues, placements, schemes of arrangement and looks for arbitrage opportunities and discount to asset plays, along with other market events viewed as favourably priced. The manager utilises stop-losses on trading positions of 10%. The portfolio is actively managed and therefore portfolio turnover is high.

PORTFOLIO CHARACTERISTICS

The portfolio may hold between 10 and 100 investments and therefore the level of concentration will vary. There are no restrictions regarding the minimum or maximum investment in any individual stock or sector and as such the manager may take large positions in an individual security. The manager may hold up to 100% cash if attractive investment opportunities cannot be identified. The company invests in LICs to take advantage of the discount companies are trading at. The manager seeks to sell LICs once the discount has been eradicated. The portfolio exited its positions in the Energy sector and significantly increased its positions in the Financials sector. The cash position increased to 34.7% at June-end, with a number of short-term positions exited.

INDEPENDENT INVESTMENT RESEARCH COMMENTS

The absolute return nature of WAA means that the company does not intend to mimic the returns of the market but generate positive returns despite the direction of the market. This is reflected by the high tracking error. The company's strategy incorporates the use of short selling to generate returns. No more than 10% of the portfolio has been 'short' since inception. The portfolio may hold high levels of cash, which will contribute to the outperformance of the portfolio when the market generates negative returns, however may result in the manager not participating in market upturns. One of the objectives of WAA is to generate positive returns in all market conditions. The portfolio did not achieve this over the June quarter, with the portfolio (pre-tax NTA plus dividends) declining 0.8%, although outperformed the market over the quarter, which declined 6.2%. In May, shareholders approved the return of capital of 4 cents per share, after the company failed to pay an interim dividend. The company is yet to declare whether or not a final dividend will be paid. In the event a dividend is declared we expect it to be lower than previous dividends. The company was trading at a discount to pre-tax NTA of 0.8% at 30 June 2015. This is the first time the company has traded at a discount since March 2013. Given our low expectations for the final dividend, we expect the discount to widen.

Spread of Managed Investment Ratings

(a) Disclaimer

The information, reports, financial models, forecasts, strategies, audio broadcasts and other media (referred to as "Content" throughout this Legal Notice), provided on this web site has been prepared and issued by Altavista Research Pty Ltd trading as Independent Investment Research "IIR," Independent Investment Research Holdings Pty Ltd (ACN 155 226 074), as authorised to publish research under an Australian Financial Securities Licence (AFSL No 420170) which allows Independent Investment Research to offer financial service advice to retail and wholesale clients. Users of this web site should not act on any Content without first seeking professional advice. Whilst the Content contained on this web site has been prepared with all reasonable care from sources which we believe are reliable, no responsibility or liability is accepted by Independent Investment Research, for any errors or omissions or misstatements however caused. Any opinions, forecasts or recommendations reflect our judgement and assumptions at the date of publication or broadcast and may change without notice. Content on this web site is not and should not be construed as an offer to sell or the solicitation of an offer to purchase or subscribe for any investment. We are not aware that any user intends to rely on the Content provided or of the manner in which a user intends to use it. In preparing our Content it is not possible to take into consideration the investment objectives, financial situation or particular needs of any individual user.

Access by any user to this website does not create a client relationship between Independent Investment Research and the user. Users seeking to invest must obtain individual financial advice to determine whether recommendations are appropriate to their investment objectives, personal financial situation or particular needs, before acting on any recommendations. Any Content is not for public circulation or reproduction, whether in whole or in part and is not to be disclosed to any person other than the intended user, without the prior written consent of Independent Investment Research.

(b) Disclosure of Interest

General

Independent Investment Research, its officers, employees, consultants and its related bodies corporate have not and will not receive, whether directly or indirectly: any commission; fee; benefit; or advantage, whether pecuniary or otherwise, in connection with making any recommendation contained on this web site. Independent Investment Research, discloses that from time to time, it or its officers, employees and its related bodies corporate: may have an interest in the securities, directly or indirectly, which are the subject of these recommendations; may buy or sell securities in the companies mentioned in the Content; may effect transactions which may not be consistent with the recommendations in the Content; may have directorships in the companies mentioned in the Content; and/or perform paid services for the companies that are the subject of such recommendations.

However, under no circumstances, has Independent Investment Research been influenced, either directly or indirectly, in making any recommendations contained on this web site.

Corporate Research

Independent Investment Research has or may have, received a fee either directly by a company itself or by a third party, to provide coverage and/or corporate research (the "Fee"). Where a Fee has been received, Independent Investment Research does not publish:

Buy / Hold / Sell recommendations for the security or managed investment schemes.

(c) Copyright Protection

All Content at this web site is protected by copyright. Apart from any use permitted under the Copyright Act (Cth) 1968, you must not copy, frame, modify, transmit or distribute the material at this web site, without seeking the prior written consent of the copyright owner. Content on this web site is owned by the business Independent Investment Research. Users are prohibited from copying, distributing, transmitting, displaying, publishing, selling, licensing, creating derivative works or using any content on the web site for commercial or public purposes

Copyright 2010 Independent Investment Research. All rights reserved.

(d) Trade Marks

The trade marks and logos displayed on this web site belong to Independent Investment Research or other parties. Such trade marks include registered trade marks and trade marks pending registration. Users are prohibited from using any of these trade marks, without seeking the prior written consent of IIR or such third party, which may own the trade mark content on this web site.

(e) Limitation of Liability

To the fullest extent permitted by the law, Independent Investment Research and any of its officers, employees, agents, consultants or related bodies corporate disclaim any liability, whether based in contract, tort, strict liability or otherwise, for any direct, indirect, incidental, consequential or special damages arising out of or in any way connected with the use of any Content made available on this web site by any person or entity.

(f) No Warranties

Independent Investment Research does not make any claims, promises, guarantees, representations or warranties regarding the accuracy, completeness or fitness for purpose of the Content made available on this web site. All information on this web site is provided to you on an as is basis, without warranty of any kind either express or implied. To the extent that research can be provided by third parties, Independent Investment Research makes no warranty or representation as to the accuracy or completeness of such information displayed on this site, and accepts no liability for errors or omissions arising from such third party information. To the fullest extent permitted by law, under no circumstances will Independent Investment Research be liable for any loss or damage caused by users reliance upon information obtained through this web site. It is the responsibility of the user to evaluate the accuracy, completeness or usefulness of any information, opinion, general advice or other content made available through this web site. Furthermore, Independent Investment Research does not warrant or represent that this web site is error free or free from viruses or defects. A user must do all that is necessary (including using virus checking software) to satisfy itself that accessing this website will not adversely affect its system.
