Directors' Report to shareholders for the half year ended 31 December 2021

The Directors present their report together with the financial report of WAM Capital Limited for the half year ended 31 December 2021.

Directors

The following persons were Directors of the Company during the financial period and up to the date of this report:

Geoff Wilson AO (Chairman – Non-independent)

Kate Thorley (Director – Non-independent)

Dr. Philippa Ryan (Director – Independent)

James Chirnside (Director – Independent)

Lindsay Mann (Director – Independent)

Matthew Pancino (Director – Independent)

Principal activity

The principal activity of the Company is making investments in listed companies. The Company's investment objectives are to deliver a stream of fully franked dividends, provide capital growth and preserve capital. No change in this activity took place during the period or is likely to in the future.

Operating and financial review

Investment operations during the half year resulted in an operating profit before tax of \$65,403,316 (2020: \$233,406,969) and an operating profit after tax of \$48,090,948 (2020: \$166,491,681). The profit for the period is reflective of the solid performance of the investment portfolio over the six months to 31 December 2021. The investment portfolio increased 4.8% in the six months to 31 December 2021, outperforming the S&P/ASX All Ordinaries Accumulation Index by 0.2%. This outperformance was achieved with an average cash weighting of 12.9%.

The operating profit for the period includes unrealised gains or losses arising from changes in the fair value of the investments held in the investment portfolio during the period. This movement in the fair value of investments can add to or reduce the realised gains and losses on the investment portfolio and other revenue from operating activities (such as dividend and interest income) in each period. This treatment under the Accounting Standards can cause large variations in reported operating profits between periods.

The operating profit or loss for each financial period is reflective of the underlying investment portfolio performance and is important to understand with context to the overall performance of equity markets in any given period. As a result, we believe the more appropriate measures of the financial results for the period are the investment portfolio performance, the change in net tangible assets (NTA) and fully franked dividends, together with total shareholder return.

WAM Capital's NTA before tax increased 3.6% for the six months to 31 December 2021, including the 7.75 cents per share fully franked final dividend paid to shareholders during the period. This increase is after corporate tax paid of 1.9 cents per share or 1.0% of the Company's pre-tax NTA during the period. Corporate tax payments made throughout the period was the major item of difference between the investment portfolio performance increase of 4.8% and the NTA performance. The franking credits attached to corporate tax payments are available for distribution to shareholders through fully franked dividends. Other items contributing to the change in the value of the assets during the period were management fees of 0.5% and other company related expenses of 0.1%, being offset by capital management accretion of 0.4%.

The NTA before tax as at 31 December 2021 amounted to \$1.88 per share (June 2021: \$1.89). The NTA after tax was \$1.92 per share (June 2021: \$1.93). These figures are after the 7.75 cents per share fully franked final dividend paid to shareholders during the period.

The total shareholder return for the Company for the period to 31 December 2021 was 5.3%. This was reflective of WAM Capital's solid investment portfolio performance and the increase in the share price premium to NTA over the period. As at 31 December 2021, the share price premium to NTA was 18.4% (June 2021: 15.7%). This measure does not value the potential benefit of franking credits distributed to shareholders through fully franked dividends.

A fully franked final dividend of 7.75 cents per share was paid during the period and a fully franked interim dividend of 7.75 cents per share has been declared by the Board and will be paid on 17 June 2022.

On 18 October 2021, WAM Capital announced that it has acquired all of the issued capital of an unlisted investment company with net assets of approximately \$36.3 million. Consideration for the acquisition was 16,678,217 new WAM Capital shares. WAM Capital shareholders benefited from the issue of new shares at a premium to the underlying net tangible assets (NTA) of the Company, which is accretive to WAM's pre-tax NTA and enabled WAM Capital to acquire the unlisted investment company at a discount to its underlying asset backing in a cost-effective manner. On a pre-tax NTA basis, the consideration paid by WAM Capital for the acquisition was approximately \$32.9 million, representing a return on investment of approximately 9.9% on the transaction. A secondary outcome of the transaction was the contribution of franking credits to the Company, which equates to a fully franked dividend of approximately 1.0 cents per share for WAM Capital shareholders.

On 28 September 2021, WAM Capital also announced its off-market takeover bid to acquire all ordinary shares in PM Capital Asian Opportunities Fund Limited (ASX: PAF). On 22 December 2021, PAF Board Committee recommended that PAF shareholders accept that WAM Capital offer, and on 7 January 2022, the offer consideration was increased from 1 new WAM Capital share for every 1.99 PAF shares, to 1 new WAM Capital share for every 1.95 PAF shares. The offer closed on 18 February 2022 with WAM Capital receiving acceptances for 93.1% of the shares on issue in PAF. The Company intends to compulsorily acquire the remaining PAF shares that it does not currently hold and proceed with the de-listing of PAF.

As a result of the acquisition of the unlisted investment company and PAF takeover offer, 24.1 million new WAM Capital shares were issued during the period. The shares were issued at a premium to the Company's pre-tax NTA to the benefit of all WAM Capital shareholders. The issue of shares was

accretive to the Company's pre-tax NTA by approximately 0.4% and generated over \$6.9 million in value for WAM Capital shareholders as a result during the period. Since 31 December 2021, an additional 19.8 million new WAM Capital shares have been issued as a result of the takeover offer for PAF (includes acceptances up to and since 31 December 2021), bringing the total NTA accretion for WAM Capital shareholders in the financial year to approximately 0.9%, or \$13.9 million in value generated to the benefit of WAM Capital shareholders.

On 23 December 2021, WAM Capital announced the proposed acquisition of 100% of the shares in Westoz Investment Company Limited (ASX: WIC) and Ozgrowth Limited (ASX: OZG) through a Scheme of Arrangement. Under the Scheme, WIC and OZG shareholders will receive new WAM Capital shares as consideration for their respective shares. The Proposed Transactions are independent and not inter-conditional. WAM Capital shareholders will benefit from the issuance of new shares at a premium to the Company's underlying NTA, which is accretive to WAM Capital's pre-tax NTA. The proposed acquisitions will result in WAM Capital having approximately \$2.0 billion of net assets. On a pre-tax NTA basis, the expected consideration to be paid by WAM Capital for the Proposed Transactions is approximately \$257.5 million as at 31 January 2022 to acquire \$297.3 million of underlying assets, representing an expected return on investment of approximately 15.5% on each of the WIC and OZG Proposed Transactions. WIC and OZG shareholders are expected to vote on the Proposed Transactions at the end of March 2022, and if successful, the transactions will be implemented on 21 April 2022.

7. Financial instruments measured at fair value

AASB 13: Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices).

Level 3: Inputs for the asset or liability are not based on observable market data (unobservable inputs).

Included within Level 1 of the hierarchy are listed investments. The fair values of these financial assets and liabilities have been based on the closing quoted last prices at the end of the reporting period, excluding transaction costs.

7. Financial instruments measured at fair value (cont'd)

Included within Level 2 of the hierarchy are WAM Capital's investments in unlisted investment companies. The fair value of these investments have been based on their respective net asset backing, being the underlying value of their residual cash and cash equivalents and investment portfolio values at the end of the reporting period. WAM Capital's investment in PM Capital Asian Opportunities Fund Limited (ASX: PAF) has also been included within Level 2 of the hierarchy and is valued using the net asset backing per share of PAF.

Also included within Level 2 of the hierarchy is WAM Capital's investment in a convertible note and unlisted investments. The fair value of the investment in the convertible note has been recognised using the effective interest rate method inherent in the instrument. The fair value of these unlisted investment companies has been based on their respective net asset backing, being the underlying value of their residual cash and cash equivalents and investment portfolio values at the end of the reporting period. The unlisted investments have been valued using valuation techniques such as comparisons to similar investments for which market observable prices are available, the net asset backing per share or the last price to determine fair value.

During the period, WAM Capital's investment in Iris Energy Limited's convertible note was converted into ordinary shares following its initial public offering on the NASDAQ stock exchange. As a result, the investment was transferred from Level 2 to Level 1 in the fair value hierarchy. **Independent Auditor's Review Report
To the Members of WAM Capital Limited
ABN 34 086 587 395**

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of WAM Capital Limited ("the Company") which comprises the statement of financial position as at 31 December 2021, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of WAM Capital Limited does not comply with the *Corporations Act 2001* including:

- a) giving a true and fair view of the Company's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
