ASX announcement

The Board of Directors has declared a fully franked interim dividend of 5.0 cents per share, which represents a 66.7% increase on the FY2020 fully franked interim dividend. WAM Global has been able to deliver an increase in the fully franked interim dividend through the investment portfolio's outperformance in the financial year to date and the increased profits reserve available. The Company's profits reserve is currently 43.0 cents per share, representing 4.3 years dividend coverage, and forms part of the net tangible assets (NTA) of the Company. The increase in the fully franked interim dividend is consistent with the Company's investment objective of delivering investors a stream of fully franked dividends.

The WAM Global team demonstrated strong stock selection during a turbulent period for global equity markets. The WAM Global investment portfolio increased 15.5%* in the six months to 31 December 2020, outperforming the MSCI World Index (AUD) by 5.8%*, while holding an average cash level of 5.2% during the period. The WAM Global investment portfolio increased 9.3%* in the 2020 calendar year outperforming the Index by 3.7%*, with an average cash holding of 9.6%.

The Board of Directors notes the share price is currently trading at an attractive discount to the NTA of 5.4%* and believes the clear dividend guidance and the continued strong performance of the investment portfolio will lift the share price to a premium to NTA over time. In the six months ending 31 December 2020, WAM Global has achieved a total shareholder return of 30.3%.

The WAM Global fully franked interim dividend will have an ex dividend date of Monday 31 May 2021 and a record date of Tuesday 1 June 2021. The last election date for DRP will be on Thursday 3 June 2021 and Monday 7 June 2021 will be the payment date for the dividend.
