#### An update on our top picks

The Board of Future Generation Global Investment Company (FGG) have declared an inaugural fully franked final dividend at 3.0 cents per share. The full year 6.0 cents per share fully franked dividend represents a 200% increase on the FY20 fully franked dividend. The company previously paid dividends on an annual basis, however a recent change in accounting policies disclosed in the June 2021 Half-Year accounts has provided for additional flexibility. It will now pay interim and final dividends each year.

Investments held in managed funds were conservatively measured at fair value through other comprehensive income, consistent with the classification of Available for Sale Securities, being debt and equity instruments that are neither expected to be held to maturity nor realised with the intention of a short-term holding period profit. However given the overwhelming daily liquidity profile of the investment portfolio, which features pro-bono wholesale open-end managed funds, the Board determined it would be more appropriate for units directly redeemable from the fund to be classified, and subsequently measured, at fair value through P&L moving forward. The effect of this reclassification will not change the carrying value of investments or net asset backing

calculations, only the flow of items through the income statement, and in turn the bottom line and retained earnings of the company.

The Board of WAM Alternative Assets Limited (WMA) have declared a fully franked interim dividend at 2.0 cents per share, an increase of 100% on pcp, taking the forward annual dividend estimate to 4.0 cents per share. This would represent a net and gross vield of 3.6% and 5.1%, respectively, based on the last close. Portfolio Manager Dania Zinurova has previously listed digitalisation, demographic shifts and aging populations, climate change and an increasing demand for food as key macroeconomic drivers that define the investment landscape for alternative investments. Since acquiring the mandate in October 2020, the LIC has produced an annualised return of 14.9% after operating expenses, income and capital gains tax, while holding an average cash exposure of 24.6%. The manager still intends to expand into private debt and infrastructure. There is already a \$15.0m capital commitment to the Palisade Diversified Infrastructure Fund sitting as cash on balance sheet. The low returns correlation to large cap Australian equities and an ability to consistently generate annuity-style returns remains attractive when considering a composite need for capital preservation, income and diversification. However we believe that furthered depth in the individual asset class exposures could harness additional structural tailwinds, such as inelastic consumer demand, cost funding barriers to entry, long duration revenues, inflation protection and a proliferation in the appetite for alternative financing with bank disintermediation.

Bell Potter's Indicative NTA tracks the 'indicative' movement of a LIC's underlying NTA each month by monitoring the percentage movements of the disclosed holdings, and using an index to track the movement of the remaining positions. We have also included an adjusted indicative NTA and adjusted discount, where applicable, which removes the LIC distribution from the ex-dividend date until the receipt of the new NTA post the payment date.

#### **BELL POTTER**

Bell Potter's Indicative NTA tracks the 'indicative' movement of a LIC's underlying NTA each month by monitoring the percentage movements of the disclosed holdings, and using an index to track the movement of the remaining positions. We have also included an adjusted indicative NTA and adjusted discount, where applicable, which removes the LIC distribution from the ex-dividend date until the receipt of the new NTA post the payment date.

<sup>\*</sup>LTM Dividend is the sum of dividends paid over the last 12 months, excluding any special dividends paid. #Franking assumes a tax rate of 30%, actual company tax rate applied may differ.

#### **BELL POTTER**

We have enclosed a reference page for dividends. We have used historical dividend data for the dividend information, and manager guidance where appropriate. Please note that historical dividends are no guarantee of future dividends to be paid.
