MARKET OUTLOOK

October saw the Australian sharemarket surge to a new all time high extending the bull market run to 55 months. The market climbed a wall of worry as concerns of a record oil price, surging Australian dollar and a batch of profit downgrades were pushed aside. Even the re-emergence of the subprime problems in the US did not hinder the progress of the market. With higher domestic interest rates and slowing corporate profits, we are concerned about the outlook for equity valuations. As a result we remain cautious.

DIVIDEND

The final dividend for the 2007 year was 8.0 cents a share fully franked, paid on 26 October 2007.
