Equity market outlook

-  The equity market is fairly valued overall – we are finding pockets of significant value
-  All 45 OECD nations are exhibiting positive GDP growth for the first time since the GFC
-  Domestic interest rates are on hold for the short-to-medium term
-  Geopolitical risks are currently elevated
-  Consumer sentiment remains unsteady
-  Australian companies are reinvesting to drive growth

Where we see value

-  The insurance industry
-  Oversold supermarkets
-  Resource and mining services companies
-  The major banks
