Net Tangible Assets (NTA) figures

The following NTA figures are before the payment of the 7.0 cents per share fully franked interim dividend which will be paid on 30 April 2015. The shares will trade ex dividend on 20 April 2015.

NTA before tax	190.35c[*]
NTA after tax and before tax on unrealised gains	191.24c^{**}
NTA after tax	186.46c^{**}

* This figure is after the payment of 0.3 cents in tax during the month.

** Includes 1.6 cents of tax assets resulting from the merger with Premium Investors.

Market overview

While the first quarter of 2015 was the best for the S&P/ASX All Ordinaries Accumulation Index in 24 years, gaining approximately 10.2%, it remained flat in the month of March. The market's subdued performance was largely in response to the Reserve Bank of Australia's decision to hold the cash rate at 2.25%. Weak data from China and continuing downward pressure on base metal and oil prices caused some turbulence during the month.

Domestic data presented few surprises with the market's negative expectations largely proven accurate. In particular, employment, consumer confidence and housing finance approval figures released this month all painted a grim picture of the Australian economy. Australia's performance against global equity markets was mixed, as the commencement of quantitative easing in Europe led to a rally in its markets. In the United States, the S&P500 has more than tripled from its low in March 2009, driven by three rounds of stimulus by the Federal Reserve.

Our outlook for the remainder of the year is mixed as we believe valuations are full, notwithstanding the likelihood of further rate cuts. The market is experiencing increasing initial public offering activity and we are actively monitoring and participating in value opportunities as they arise.

WAM Capital Limited

ASX Code	WAM
Listed	Aug 1999

Investment Update & Net Tangible Assets Report

AS AT 31 MARCH 2015

Dividend growth

The Board is committed to paying an increasing stream of fully franked dividends to shareholders, provided the Company has sufficient profit reserves and franking credits, and it is within prudent business practices. The Company's ability to generate franking credits is dependent upon the receipt of franked dividends from investments and the payment of tax. Dividends are usually paid on a six-monthly basis and the dividend reinvestment plan is available to shareholders for both the interim and final dividend.

WAM Capital dividends since inception

*Annualised interim dividend

On 12 January 2015, the Company announced a fully franked interim dividend of 7.0 cents per share, an increase of 7.7% on the previous corresponding period. The record date for this interim dividend is 22 April 2015. The interim dividend will be paid on 30 April 2015 and shares will trade ex dividend on 20 April 2015.

The dividend reinvestment plan (DRP) will operate at a 2.5% discount for the interim dividend. To participate in the DRP, shareholders should send their DRP Election Form to the Company's share registrar (Boardroom) no later than 23 April 2015.

Share Purchase Plan and Placement

On 9 March 2015, the Company announced that the WAM Capital Limited (WAM) Share Purchase Plan ('SPP') and placement raised a combined \$193 million.

The SPP, announced 12 January 2015, offered existing shareholders the opportunity to acquire up to \$15,000 worth of ordinary shares at the fixed price of \$1.90 per share without incurring any brokerage or other charges. Despite more than 8,800 or 61% of WAM Capital shareholders taking up the offer, all successful applicants received their full allocation of shares.

In addition, existing wholesale WAM shareholders participated in a placement under the same terms as the SPP. The placement raised \$90.1 million as allowed by the ASX listing rules and was oversubscribed and was subject to scale back. Shareholders who participated in the SPP or placement are entitled to the 7.0 cent fully franked interim dividend.
