Company overview

WAM Capital (WAM) is a listed investment company that provides investors exposure to an actively managed diversified portfolio that concentrates on identifying undervalued growth companies. These are generally found in the small to medium industrial sector. WAM also provides exposure to relative value arbitrage and market mispricing opportunities.

Investment objective

The investment objectives are to deliver a rising stream of fully franked dividends, to provide capital growth and to preserve capital.

Outperformance against sharemarket

Since inception, the WAM investment portfolio has outperformed the overall sharemarket. WAM's performance against the S&P/ASX All Ordinaries Accumulation Index is shown in the table below. The investment performance is before expenses, fees and taxes.

2013 Interim Dividend Guidance - 6.0 cents per share fully franked

On 5 November 2012, the Board announced the intention to pay a fully franked interim dividend of 6.0 cents per share for the half year ending 31 December 2012. This will be a 9.1% increase on the previous years' interim dividend and represents an annualised fully franked dividend yield of 7.5% based on the last sale price. The dividend payment will be reliant on profitability and the availability of franking credits.

It is anticipated that the record date for the proposed interim dividend will be no earlier than February 2013, which is consistent with previous years. If the Premium Investors Scheme of Arrangement is approved and implemented in accordance with the current timetable, Premium shareholders who elect to receive WAM shares as consideration will receive the interim dividend. This is assuming these shares are held on the dividend record date.

The Board's dividend policy is to pay an increasing stream of fully franked dividends to shareholders provided the Company has sufficient franking credits and it is within prudent business practices. It must also comply with Government legislation and the ATO's interpretation of a company's ability to pay franked dividends. Dividends are paid on a six-monthly basis. Dividend payments will also be made with consideration to cash flow and cash holdings.

Merger to acquire 100% of Premium Investors

On 14 September 2012, WAM announced a proposed merger with Premium Investors Limited (Premium) through a scheme of arrangement. The offer involves WAM acquiring 100% of Premium shares on a net tangible assets (NTA) for NTA basis. Subsequent to our offer, the Independent Directors of Premium have recommended the offer to their shareholders.

WAM will offer Premium shareholders the option to exchange up to 100% of their Premium shares for new WAM shares, receive 100% cash out or a combination of both. Each Premium shareholder who elects to receive scrip consideration will also be issued one WAM option (WAMO) for each new share issued.

The WAM Board believes the merger will be beneficial to WAM shareholders as it will provide a greater market presence, increased liquidity of WAM shares and a reduction in the fixed administration expense ratio. There are also potential benefits from the deferred tax assets and franking credit balances in the Premium accounts.

WAM owns 2,710,746 Premium shares, or 2.7% of the issued capital. The shares have a cost price of \$0.64 per share, representing a 23.2% discount to the September NTA. With the announcement of the merger the Premium share price is now trading close to NTA.

On 31 October 2012, the Court approved the scheme booklet which was despatched to Premium shareholders on 8 November 2012. The Independent Expert has concluded that both the cash consideration component and the scrip component of the scheme are fair and reasonable and are in the best interest of Premium's shareholders in the absence of a superior proposal. The scheme meeting to approve the merger will be held on 10 December 2012. The indicative implementation date is 31 December 2012.

For further details please refer to the WAM Capital merger page on our website www.wamfunds.com.au or the ASX announcement platform.

Option issue – 1 for 1 bonus issue

On 2 April 2012, the Board announced a 1 for 1 bonus issue of options to acquire ordinary shares in the capital of the Company. The options have an exercise price of \$1.60 per share and can be exercised at any time on or before 31 July 2013. The options are currently trading on the ASX under the code WAMO.

As at 31 October 2012, 7,931,241 options have been exercised for a total consideration of \$12,689,986. The remaining balance of outstanding options is 121,773,922.

Market outlook

Market up again

The ASX S&P All Ordinaries Accumulation Index finished up 2.97% for October. This was its 5th consecutive positive month. It has also now registered 9 positive months in the last 10. Another 0.25% interest rate cut by the RBA and the expectation of further cuts helped drive the market higher.

Merger and acquisition activity heats up

A low interest rate environment is conducive to merger and acquisition activity, as we have mentioned previously. This month a plethora of deals were announced with takeover or merger talks involving Arrium, Discovery Metals, Graincorp, WHK Group and SFG Australia. We believe this trend will continue as more interest cuts are delivered by the RBA during FY13.

Downgrades leak out

Downgrades have been announced from companies such as Harvey Norman, SMS Management and Technology, Emeco Holdings and Treasury Wine Estates, representing varying sectors of the economy. November is a key time for AGMs and we expect further downgrades to be revealed at these meetings. The feedback we continue to receive from companies is that trading conditions remain challenging.

Portfolio structure

As at 31 October 2012, listed securities made up 68.7% of the portfolio with fixed interest and cash making up the remaining 31.3%. Our focus is on companies with strong earnings per share growth that trade on attractive earnings multiples, are well positioned in growth industries and have proven management. We continue to research thoroughly to identify companies that meet this profile, and carry out over 1,000 company visits a year.
