

Annual General Meeting Chairman's Address

19 November 2019

Introduction and welcome

Good afternoon and welcome to the 21st WAM Capital Limited Annual General Meeting (AGM). I would firstly like to acknowledge the Gadigal people of the Eora nation and pay my respects to their Elders past and present. I would also like to welcome all our shareholders – thank you for joining us and for your continued support of WAM Capital.

I am Geoff Wilson, Chairman of the Board of Directors. I am joined today by my fellow Board members, Kate Thorley, Lindsay Mann and James Chirnside. Dr Philippa Ryan is an apology due to her longstanding commitment in India in which she will be attending a conference regarding the drafting of national standards for Blockchain Technology and the use of smart contracts. Pip is Australia's Head of Delegation for that conference. Scott Whiddett, a representative from our auditor Pitcher Partners, will be available to address any questions relating to the Company's financial statements.

FY2019 in review

Equity market overview

The 2019 year began with expectations of synchronised – albeit softening – global growth and tighter United States (US) monetary policy. In the December quarter the global economy faltered, China's growth slowed and the end of the longest US bull market appeared to be approaching. By January 2019, the US Federal Reserve executed one of its sharpest u-turns in recent memory, pausing interest rate increases and signalling the end to quantitative tightening. This, coupled with aggressive Chinese stimulus, drove equity markets to new highs as interest rates fell.

The MSCI World Index (AUD) ended the financial year up 12.0%, while the S&P Global Mid Small Index increased only 5.6% in AUD terms. Interestingly, large-cap companies drove the US market's gains as the S&P 500 Index climbed 10.4% during the year in local terms, while the small-cap focused Russell 2000 Index fell by 3.4% in local terms.

The divergence of large-cap and small-cap returns globally was mirrored in Australia, as the S&P/ASX 200 Accumulation Index increased 11.5% in the financial year and the S&P/ASX Small Ordinaries Accumulation Index rose by just 1.9%. The large-cap performance led the S&P/ASX All Ordinaries Accumulation Index, which rose 11.0% for the financial year.

Investment portfolio performance

The WAM Capital investment portfolio increased 2.0% in the 12-month period, climbing 5.4% in the final quarter and rebounding 12.4% in the six months to 30 June 2019. Over the 12-months we adjusted our cash levels continuously while averaging 29.4% throughout the period.

During the period we invested in 307 individual companies and at 30 June we had investments in 114 companies. The largest contributors to the investment portfolio's performance during the period included: global ship building company and defence contractor, Austal (ASX: ASB); financial technology business, Afterpay Touch Group (ASX: APT); artificial intelligence and machine learning specialist, Appen (ASX: APX); English language focused education provider, IDP Education (ASX: IEL); and leading plus-sized fashion retailer, City Chic Collective (ASX: CCX).

Financial results and capital management

In 2019, the Company achieved continued growth increasing shareholders equity to \$1,344.4 million and total shareholder numbers by 11.0% to 34,415. This growth was achieved through the performance of the investment portfolio and the capital management initiatives throughout the year. WAM Capital recorded an operating profit before tax of \$6.0 million (2018: \$166.9 million) and an operating profit after tax of \$14.5 million (2018: \$125.4 million).

During the year, the Company successfully completed its takeover offer for Wealth Defender Equities (WDE). As a result of the takeover offer, 41.4 million new WAM Capital shares were issued as scrip consideration for the acquisition of WDE. The shares were issued at a premium to the Company's pre-tax net tangible asset (NTA) to the benefit of all shareholders. This issue of shares was accretive to the Company's pre-tax NTA by approximately 1.0% and generated over \$15 million in value for WAM Capital shareholders as a result.

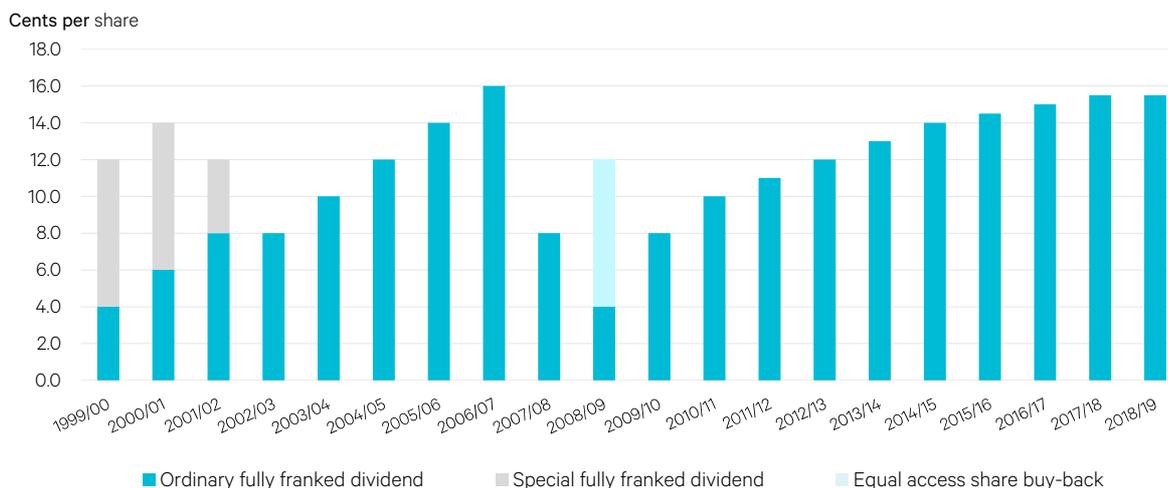

Total shareholder return and share price premium to NTA

The total shareholder return (TSR) for WAM Capital for the year to 30 June 2019 was impacted by the decline in the share price premium to NTA. As at 30 June 2019, the share price premium to NTA was 9.8% (2018: 17.2%). This was offset by the investment portfolio performance, with TSR decreasing 8.6% for the year. This measure does not value the potential benefit of franking credits distributed to shareholders through fully franked dividends. On 18 November 2019, the share price premium to NTA was 19.1%. Throughout its 21-year history, the Company's share price has traded at both premiums and discounts to its NTA.

Fully franked dividends

The Board declared a fully franked full year dividend of 15.5 cents per share, which represents a 7.7% yield on the 30 June 2019 share price of \$2.02. Since inception, the Company has paid 238.50 cents per share in fully franked dividends to shareholders.

Company outlook

WAM Capital entered the 2020 financial year with a conservative balance sheet, a high cash weighting, no debt and a flexible and proven investment approach with the patience and expertise of an experienced investment team. The preservation of shareholder capital is a key focus of our investment process. Despite our cautious outlook, the Company will continue to identify and act on opportunities in the market and are confident that the WAM Capital portfolio is comprised of companies with valuation upside and compelling fundamentals.

Public policy and advocacy

On behalf of our 80,000 shareholders of our six LICs as well as self-funded retirees and low-income earners throughout Australia, we advocated against the inequitable and illogical policy to remove refunds on franked dividend income that was announced on 13 March 2018. We were pleased to see the end of the proposal and thank our shareholders for their support.

Shareholder engagement and communication

Making a difference

Wilson Asset Management, WAM Capital's investment manager, is passionate about making a positive difference to our shareholders and the community. In the 2019 financial year the team worked towards this objective in a number of ways.

We continued our support of Future Generation Australia (ASX: FGX) and Future Generation Global (ASX: FGG), Australia's first philanthropic wealth creation vehicles with the dual purpose of creating shareholder wealth and investing in our future generation. FGX and FGG are actively making a difference with a significant stream of annual investments in high impact charities working to better the lives of young Australians. Wilson Asset Management's team gives ongoing pro bono support to these innovative companies, providing funds management, marketing, shareholder communications, company secretarial, administrative and support functions.

Wilson Asset Management is a signatory to Pledge 1% – a global corporate philanthropy movement that commits to donating 1% of product, 1% of equity, or 1% of employee time to improve communities around the world. We achieve this in a number of ways, including through a program that allows our staff to spend one day each month working in the non-profit sector.

We are proud to provide significant support to various charities. In addition, every Wilson Asset Management team member is given \$10,000 per year to donate as they see fit to any one or multiple charities. All donations are made by the investment manager and not WAM Capital.

Today, we announced our plans to raise up to \$1 million for Australians affected by drought and bushfires in New South Wales and Queensland. We will match funds donated to the Foundation for Rural and Regional Renewal (FRRR) by our shareholders and supporters. You can visit our website for details.
